

AVENTOS HS

An excellent choice for wall cabinets

Because AVENTOS cabinet doors open upwards, they provide an excellent view into the cabinet interior. This enables comfortable and ergonomic access to storage items. The kitchen user retains freedom of motion by keeping the cabinet door out of the way.

The AVENTOS program opens up a whole new world of design possibilities for kitchens and office spaces. Even wide doors can be accommodated allowing upper cabinets to mirror the same look as wide base cabinets to create a uniform look.

AVENTOS HS – Up and Over

- Single door that swings over the top of the cabinet
- Ideal for wider wall cabinets with single fronts
- Suitable for wall cabinets with crown molding
- No hinges necessary

SERVO-DRIVE for AVENTOS

SERVO-DRIVE electrical opening feature for AVENTOS lift systems open with just a light touch – and then close again with the press of a button. Discover for yourself how easy the opening and closing of doors can be, along with the function and design opportunities available with SERVO-DRIVE for AVENTOS.

- Available for AVENTOS HF, HS, HL and HK lift systems
- Ideal for handleless lift applications
